

Odyssey

6/1/2009 - 8/31/2009

Odyssey

www.odysseydenver.org

The Odyssey School's singular approach to educating young people works. In 2008, the Colorado Department and Board of Education recognized Odyssey as a Colorado School of Distinction--one of the state's top nine schools for academic growth. Odyssey was founded in 1998 and moved to Stapleton in 2003. We are an award-winning, innovative school serving an intentionally diverse population. One-third of our students come from poverty backgrounds; one-half are children of color. Together, we reflect Denver's overall populace. Odyssey embraces the Expeditionary Learning model, emphasizing learning through direct in-depth study of relevant issues, people and places. We hold our students accountable to exemplary standards of character, intellect, and community.

Summer Skills - AM

Extended Learning

A typical child loses more than a month's worth of knowledge in math, reading and language arts during the summer months. Created by The Odyssey School to help all students retain the basics of numbers and words, each morning's instruction will emphasize continuing development of skills. We will reinforce grade-level benchmarks and extensions. Each child will receive individual attention each day and lessons will also be differentiated, focusing on skills needed to be built up. Instructors are Expeditionary Learning teachers and teaching assistants. A certified reading teacher will be on hand to work with emergent readers and to build comprehension for older students.

Summer Sports Series with Peter Barclay

Athletics

An average American child spends 27 hours a week watching television—and much less than that outside. In summer, hours can add up. Revoke that remote and get your child up and moving with Odyssey Summer Sports Series. Students develop an understanding of exercise and sport training techniques, fundamentals of team sports, and what it takes to be a team player. Through training and playing sports, students learn leadership skills, collaboration, commitment and determination—all while having a terrific time! Each day focuses on a different sport: soccer, rugby, ultimate Frisbee, basketball, and a Friday field day featuring classic coordination-building games like three-legged races, egg-and-spoon race, water-balloon tossing, etc. Available for one week only! Taught by Odyssey's, Peter Barclay, teacher's assistant and semi-pro rugby player for the Denver Barbarians.

Odyssey

6/1/2009 - 8/31/2009

Minds-On, Hands-On - PM

Extended Learning

Using Expeditionary Learning style, students will develop arts, crafts, and cooking skills while learning valuable math and language concepts. Enrichment activities will include music, games, science experiments, and outdoor play. We will also be leaving campus about once a week for fieldwork experiences, to such places as museums, nature preserves, and the Zoo.

Expedition 4/5

Extended Learning

Frontloading content primes students for success in the coming school year and overcomes the single biggest obstacle in learning, insufficient background knowledge. Whether as a preview (for continuing Odyssey students) or a stand-alone experience (for non-Odyssey students), this Summer Expedition will be adapted to meet each learner's needs and interests. Summer Expeditions are carefully designed two-week "slices" of full-on expeditions, being previewed prior to next school year. For upcoming 4th and 5th graders.

Program	Price	Min/Max	Deadline	Aud	Time	Date(s)	Location
S09-34-65-599	\$200	6 / 15	7/10	9-12 yrs	9:00-12:00pm	Mon: Jul 13, 14, 15, 16, 17, 20, 21, 22, 23, 24	ODY: 245

Note: Simple Machines & Electricity — How do simple machines work? What can we invent? What are the benefits and costs of technological progress? This slice will focus on science, with integration of math. Reading and writing are to be infused throughout.

S09-34-65-600	\$200	6 / 15	7/24	9-12 yrs	9:00-12:00pm	Mon: Jul 27, 28, 29, 30, 31, Aug 3, 4, 5, 6, 7	ODY: 245
---------------	-------	--------	------	----------	--------------	--	----------

Note: Colonial America & Foundations of the U.S. Government — Who is an American? How was our government formed? Why did we end up with a democracy? This slice will focus on humanities. Reading, writing and math are to be infused throughout.

Odyssey

6/1/2009 - 8/31/2009

Expedition 6

Extended Learning

Frontloading content primes students for success in the coming school year and overcomes the single biggest obstacle in learning, insufficient background knowledge. Whether as a preview (for continuing Odyssey students) or a stand-alone experience (for non-Odyssey students), this Summer Expedition will be adapted to meet each learner's needs and interests. Summer Expeditions are carefully designed two-week "slices" of full-on expeditions, being previewed prior to next school year. For upcoming 6th graders. Colorado Geology & History — What could we mine for here? Why did miners come to Colorado? What's the rock cycle? What is geologic time? This slice features a dual focus on science and humanities. Reading, writing and math are to be infused throughout. NOTE: The two sessions of the 6th grade program will be identical. A student shouldn't take it twice.
